2 abandoned sick labradors, 2 Indie puppies and 1 adult dog from the rescue centre found their forever happy homes.

A Happy Adoption Tale

Michael- who was a pet dog, mercilessly abandoned by his family when the owners shifted to their new house. He was forced to live the life of a stray dog, finding his own food sources on streets. With the hardships, he got injured and developed a maggot infection on his right ear.

Rescued by Bark India team from Kottakuppam, Puducherry. Wound healed, sterilised and vaccinated, his story of second life started on 30th January.

The family of Ms. Sasirekha rushed to Bark India their pet dog Shadow in extremely critical condition as he was bitten by a snake. Even though all the possible care and medications were given, the dog passed away after hours. The family decided to provide a happy life to an Indie dog by adopting, in memory of their pet- Shadow.

Thanks to the entire family for adopting an abandoned animal.
