As the sole animal welfare organization in Pondicherry, equipped with a hospital and rescue center, every single day presents us with a staggering 10-15 rescue calls from various corners of our beloved city. We do our utmost to respond to each plea, to welcome in as many as we can, but the reality is stark. We had to stop admitting the new cases for a few days and to treat them as out patients, as the kennels were full.

Rescue operations are restarted though, kennel space is almost occupied fully as an average of 3-4 animals get admitted every day with us.

We thank all the animal lovers/feeders and people who helped us in treating animals as outpatients and help in on-spot treatments.

In the Month

- **Rescue and Treatment – 96**
- **Veterinary Surgeries – 62**
- **Outpatients – 86**
- **Vaccinations – 173**
- **Stray Animal Feeding – 350/day**

RESCUE AND TREATMENT-96

Even though the month was busier with fully occupied kennels who need long-term medical care, we are happy that 96 animals got rescued and admitted at the centre for medical attention;. Most of them are recovering and we are looking forward to give you happy updates.

VETERINARY SURGERIES- 62

62 veterinary surgeries have been done in the month including life saving surgeries like tumor removal, eye surgeries, orthopedic, sterilization of rescued animals. Each surgical intervention not only made the animal's life better , but contributed towards the welfare of stray animals in general.

STRAY ANIMAL FEEDING-350/DAY

In the heart of our mission lies compassion, and nowhere is this more evident than in our daily stray dog feeding program.

Each day, rain or shine, our dedicated volunteers hit the streets to provide nourishment to over 350 stray animals right where they roam. This crucial initiative not only fills empty bellies but also offers a glimmer of hope and kindness to those who need it most.

HAPPY ADOPTIONS- 6

The abandoned retriever dog who was rescued by Bark India found his forever happy home. Thank you Mr. Abinu Santhosh for choosing adoption.

2 abandoned labrador dogs rescued with maggot infections found their forever homes.

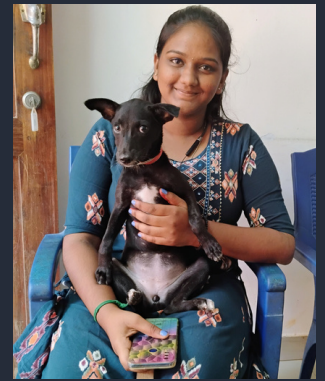

Thank you Mr. Karthikeyan and Mr. Pradap Dandapani for adopting.

Rescued pomeranian dog with a big wound on her thigh- got treated, spayed and adopted to her forever home of Ms. Shenbagavalli.

Ms. A. Karthika with adopted puppy from Bark India.

The rescued puppy has been waiting for so long to find her forever home, after treatment.

Mr. Pratap with his adopted rescued puppy from Bark India.

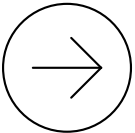

Thanks to each and everyone who share the adoption requests through social media. Without your help, finding them homes would not have been possible.

We have 2 Indie-Mongrel pups are up for adoption. Contact Us- 94870 07552

(Free vaccinations and sterilization on time)

EXTEND YOUR SUPPORT

As the area of activity expands and number of rescues increases, there rise up the expenses also. Your support has been the backbone of our activities. Please extend your hands of compassion to the neediest.
