

BARK INDIA CHARITABLE TRUST

Monthly Newsletter- February,2025

Rescue and Treatment- 112

In February 2025, Bark India rescued and provided admission, food, shelter, and treatment to 112 animals in need. Cases ranged from maggot wounds, tumors, hematomas, TVT, accidents, spinal injuries, and various cancers to other critical diseases.

Our dedicated team worked tirelessly to ensure each animal received the care they deserved, offering them a chance at recovery and a better life. Your support helps us continue saving lives every day.

Veterinary Surgeries-52

In February 2025, Bark India's veterinary team and skilled surgeon performed 52 life-saving surgeries at our hospital. These included spay and neuter procedures for rescued animals, hernia repairs, tumor removals, orthopedic pinning, amputations, and hematoma treatments.

With expert care and dedication, we continue our mission to save lives and provide a second chance to injured and ailing animals.

Veterinary Internship

Help Us Continue !

Our efforts extend beyond rescue—our veterinary team performs life-saving surgeries, spay and neuter procedures, tumor removals, amputations, and more to ensure better lives for these voiceless beings. We also conduct feeding programs, vaccination drives, adoption initiatives, and school awareness sessions to foster compassion and responsible animal care in society.

None of this is possible without the generous support of kind-hearted animal lovers, donors, and well-wishers like you. Your continuous contributions help us save countless lives and create a safer, healthier environment for strays. Every donation, big or small, directly impacts our mission. Join us in making a difference—support Bark India and help us continue our life-saving work for the animals who need us the most!

Follow us on social media for more updates of our activities!
