July 2025

## Towards a better world

July 2025 was a month of compassion and care at Bark India. With the generous support of our donors and well-wishers, we rescued and treated numerous sick and injured animals, and continued our sterilization and vaccination efforts. Your kindness made every rescue, every recovery, and every educational effort possible. We are deeply grateful for your continued support in helping us create a safer, healthier world for stray animals in and around Pondicherry.

# Rescue and Treatment- 106

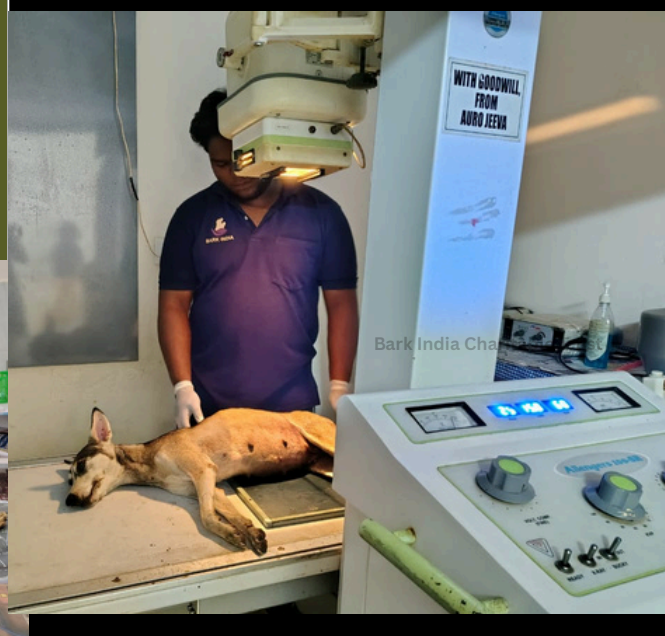

( 106 stray animals  
(103 dogs and 3 cats) have been  
rescued, admitted and given medical  
care, in which cured animals are  
released and sick are still undergoing  
treatment.

distress cats, from paralyzed kittens  
struggling to move, to a heartbreaking  
case of a dog with boiled water poured  
on its back. We treated animals  
suffering from severe maggot wounds,  
fractures, road accidents, cancers,  
spinal injuries, organ failures, and  
various other life-threatening  
conditions.

Each rescue is a race against time, and  
our dedicated veterinary team works  
tirelessly to give these animals a  
second chance at life. Every life saved  
is a testament to the compassion and  
support we receive from our kind-  
hearted donors and well-wishers.

- Outpatients- 95
- Vaccinations-87

# · Veterinary Surgeries - 71

Each surgery made a forever, happy, healthy animal. From minor surgeries to complex orthopedic, tumor surgeries that take hours, we promise the stray fur kids a second chance.

---

350 community strays are getting fed with a full, healthy meal twice a week.

## Adoptions-2

Each adoption is a forever promise. A promise of having a lifetime companionship. We are here to support them with free medical care, vaccinations, sterilization and medical advice.

## Here's how you are making an impact:

Helping us to meet expenses of medicines, surgeries, supplements etc for medical care.

Supporting us to meet rescue strays' regular food and special food needs .

Enabling us to meet the welfare expenses of admitted sick strays.

You are helping them to have a second chance in life.

The sterilised, vaccinated, healthy animals contribute to a healthy society.

**EACH DONATION MAKES A TRUE, FOREVER DIFFERENCE IN THE LIFE OF A STRAY.**
