A Decade of Compassion: 10 Years of Serving Strays

Monthly Newsletter

AUGUST 2025

August month is extra special for us at **Bark India**. As we step into our **10th year of service**, we look back with gratitude and pride at the thousands of lives touched, healed, and saved. What began as a small step to help the voiceless has grown into a movement of compassion—**thanks to YOU.**

• August 2025 Impact at a Glance

Rescues: 97

Surgeries: 87

Outpatient Treatments: 114

Adoptions: 3

School Awareness Program: 1

Vaccinations: 126

Rescues – 97

This August, our rescue team rushed to the aid of 95 dogs and 2 cats—victims of accidents, cruel wounds, starvation, and neglect. Each call we received was a cry for help, and each life we touched became a story of courage and resilience.

From broken bones mended with care, to maggot wounds healed with patience, to frightened eyes that slowly learned to trust again—every rescue was a battle against suffering and a victory for compassion.

✨ *These 97 souls remind us why we exist: to give the voiceless a chance at life, to turn their pain into hope, and to prove that no struggle is too small when love leads the way.* ✨

Surgeries – 87

11 major surgeries gave animals a second chance at life, while 76 Animal Birth Control surgeries helped prevent future suffering and street fights.

✨ *Every stitch was not just medical care—it was a step towards a healthier, safer, and kinder future for the strays.* ✨

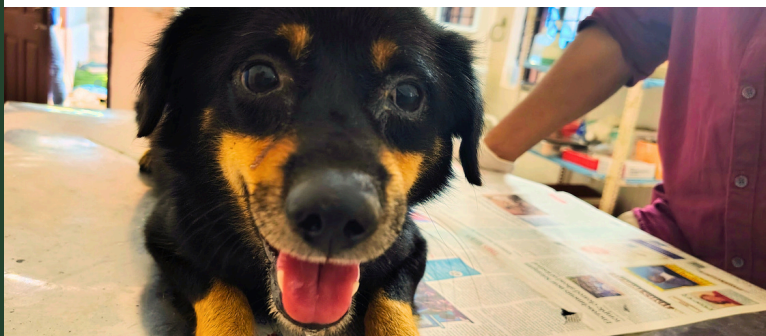

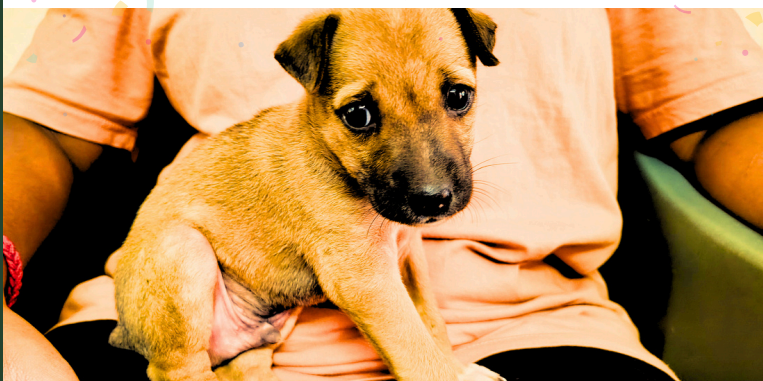

Outpatient Treatments – 114

In August, 114 animals walked through our doors seeking relief from pain. Among them were 89 dogs, 23 cats, and 2 birds—each carrying wounds, infections, or illnesses that needed timely care.

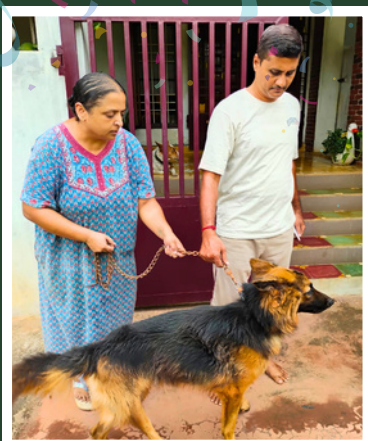

Our outpatient services ranged from first aid for accident victims, to wound dressings, medications for skin infections, and follow-up check-ups for those on the road to recovery.

Every OP case may not look dramatic, but to each animal, it meant the world—a soothing touch, a healing hand, and the comfort of knowing their suffering mattered to someone.

Adoptions – 3

Adoption is where our journey of rescue finds its happiest ending. In August, 3 precious souls left behind the struggles of street life and stepped into the warmth of forever homes.

Thousands of street dogs are still waiting for love, care, and a safe home.

When you adopt, you don't just save a life—you gain a friend who will love you unconditionally.

✨ Choose compassion.
Please adopt, don't shop. ✨

🎓 School Awareness Program - 1

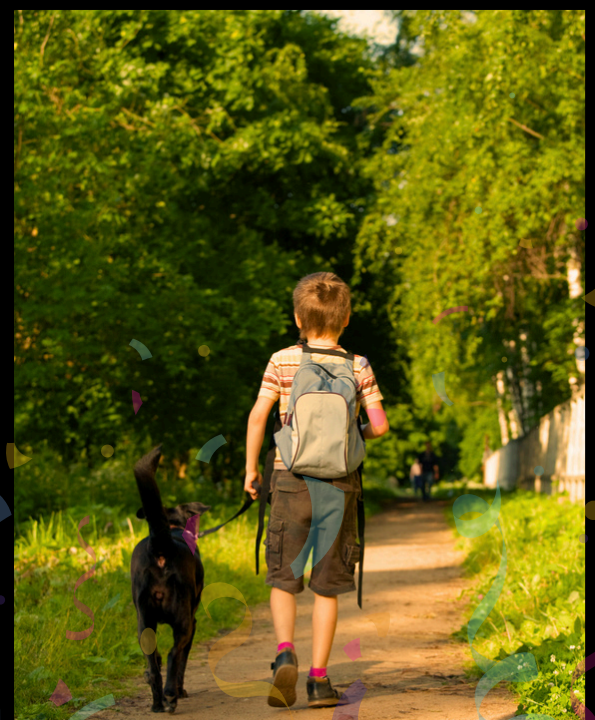

Children are the future, and when they learn kindness early, they carry it into every stage of life. Through interactive sessions, stories, and discussions, we taught them about caring for animals, the importance of sterilization and vaccination, and treating strays with respect instead of fear.

This August,
we
conducted a
school
awareness
program that
reached
young hearts
and minds
with the
message of
compassion.

The smiles, curiosity, and eagerness of the students reminded us that real change begins in classrooms. By shaping young minds today, we build a tomorrow where animals are safer, streets are kinder, and every life is valued.

✨ *Educating a child is equal to educating a generation—
one lesson of kindness today will ripple into countless
acts of compassion tomorrow.* ✨

Each vaccination is a shield—keeping not only the animals safe, but also safeguarding the people and neighborhoods they live in.

Vaccinations – 126

Prevention is as important as rescue and treatment. In August, 126 community animals were vaccinated, protecting them from deadly diseases like rabies and distemper.

A simple vaccine can mean the difference between life and death. It stops the silent spread of diseases, ensures healthier street populations, and creates a safer coexistence between humans and animals.

✨ *Every needle carried hope, protection, and the promise of a healthier tomorrow.* ✨

♥ How You Can Help Us

Every rescue, every surgery, every adoption is possible because of people like YOU. Here's how you can be part of our journey of compassion:

Your contribution provides food, medicines, surgeries, and care for injured and abandoned animals. No amount is small when it saves a life.

Volunteer

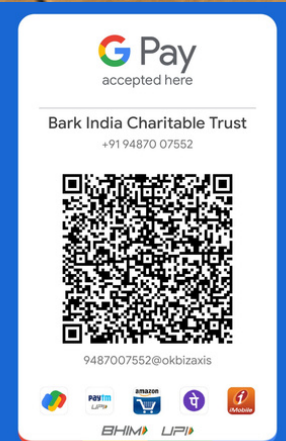

Join us on rescues, medical care. Your time and effort can bring comfort to animals in need.

Foster

Open your home temporarily to an injured or abandoned animal until they recover or find a forever family. A little space in your home can give them a big chance at life.

Follow our journey, spread awareness, and share our stories:
